

Spark internship at Swiss Re - Asset Management & Finance

About Swiss Re Group

The Swiss Re Group is one of the world's leading providers of reinsurance, insurance and other forms of insurance-based risk transfer, working to make the world more resilient. Our business is focused on understanding and analysing the major risks that concern the world - from natural catastrophes to climate change, from ageing populations to cybercrime.

The aim of the Swiss Re Group is to enable society to thrive and progress, creating new opportunities and solutions for its clients.

Our vision

'We make the world more resilient.'

About our departments -

Asset Management

The Asset Management (AM) function manages the assets that Swiss Re generates through its core insurance and reinsurance businesses. We do so by using a robust asset-liability management process. In addition to matching assets and liabilities, our team optimises risk-adjusted investment returns within defined risk limits.

Finance

The Finance departments are responsible for the accounting and reporting of all 200+ Swiss Re legal entities around the world. We perform a variety of activities including the accounting of financial transactions; preparing financial statements according to valid accounting standards; evaluating financial trends, and analysing the economic situation to improve key business strategies. Our department explores the world of finance through financial planning and analysis, carrier reporting, global investment reporting, governance teams, and much more.

Why should you apply?

...because you will have a unique opportunity to experience:

an international company

Asset Management and Finance in a reinsurance company

a professional network

interactive workshops

a collaborative environment

hands-on practical experience

Spark internship at Swiss Re

12 university students have an opportunity to participate in an exclusive two semester internship programme (up to 20 hours a week). It covers Asset Management and Finance.

Students will take part in multiple sessions and trainings led by our Asset Management and Finance leaders. They will gain hands-on experience, apply their theoretical knowledge in practice, learn how to become a vital team player, and have fun!

At the end of the programme, each intern can apply for a permanent role in our organisation.

We are searching for:

12 students
